TCSON POINT

ADDITIVE INJECTION

TOTAL CONTROL SYSTEMS™
The Standard of Measurement

Ensure consistent additive injection levels and automatically shut down deliveries when outside of range.

FULLY AUTOMATIC INJECTION SYSTEM

- Identify Product with Additive
- Authorize & Actuate Injection Pump Dosage
- Measure Additive
- Auto Monitoring & Self Adjusting Additive Ratio
- Automatic Shutdown if Additive Ratio is out of Specification
- See Your Fuel Delivery Records with Additive Online Using the TCS Hub Host Manager

PREVENT MIS-FUELING

- Minimum PPM Setting (Scalable)
- Maximum PPM Setting (Scalable)
- Volume Delay Startup Setting (Scalable)

TECHNOLOGY

- **PISTON** - Positive Control of Gammon Injection Pump and Dosage Ratio
- Other Injection Options Available

www.tcsmeters.com // (800) 348-4753 // (260) 484-0382 // sales@tcsmeters.com

The TCS 3000 Electronic Register automatically warns operators and stops deliveries when an integrated additive injection meter detects that additive levels are outside the acceptable range.

TCS PNEUMATIC PISTON INJECTION PUMP & METERING SYSTEM

- Air Operated Piston Pump and Gear Flow Meter Complete Injection System
- Injected additive printed on delivery ticket
- +/- 5 PPM Accuracy from 500 to 2500 PPM Injection Rate*
- Low cost, compact and easy installation
- Fail safe, automated injection.
- Delivery out of tolerance limit shutdown
- Optional SS Additive Tanks with Lockable Caps available
- Up to three additives available for injection**
- cUL/Atex Approved

Made in U.S.A.
